A handwritten card with a tiny safety pin and miniature bottle attached completes the sweet effect. Or go wilder, adding buttons and ribbons, a mixture of patterns, heritage laces and trims, girly-girl adornments, and a little bit of everything, from scrabble letters to decorative charms.

From Boy to Sissy Baby Oct 07 2020 The Sissy Baby is an incredibly important and common aspect of ABDL life. These four novels are not books that are a full-on sissy extravaganza from the first word until the last. They are – like in real life – a step-by-step journey that follows the story of a young man who finds femininity erupting in his life, just as infancy is also developing. The twin aspect merge and a sissy baby is formed. And in every case, the sissy baby needs to find a life where they are able to live, develop, grow and be part of a relationship that works and matters. I hope you enjoy these four novels as much as the authors enjoyed writing them and it is worth remembering that while they are fiction, they do represent part of the canvas of real life and some scenes are based in part on actual events. Enjoy your travels through the world of the sissy adult baby.

The Connecticut Baby Nov 07 2020 Delilah Perkins has a family secret that is about to be discovered. At 109 years of age and nearing the end of her time, Delilah’s descendants number in the dozens. She lives in a home surrounded by photos of her memories spanning over a century. 21-year-old Zachary Perkins, one of Delilah’s forty great-grandchildren, is just starting his life, only months away from his college graduation. While paying a final visit to the family matriarch, Zachary uncovers an old photograph that reveals Delilah’s secret - a long-lost child, unknown to anyone in the Perkins family. What happens next is simply beyond Zachary’s comprehension. He is transported back to Delilah’s past where he experiences her family secret in the first person, incredibly as the very child same in the photograph. It is the Summer of 1922. The United

States is crawling out of its post-war (World War I) recession. The 1920s are at last beginning to roar. Zachary discovers not only Delilah's long-lost child, but the long-lost life of a woman heretofore unknown to the Perkins family. He uncovers a lifetime buried on the distant side of a World War and the Great Depression; the lifetime of the beautiful and free-spirited Delilah Hayes at just 21 years, his own age in the present time. Over the course of the Summer, Zachary becomes more and more attached to Delilah's past. He falls in love with the coastal town of New Orchard, Connecticut, where Delilah got her start; along with the quirky people who inhabit his young great grandmother's life. Zachary begins to feel that Delilah's past, in fact, belongs to himself; that this is the life he was supposed to live. Zachary questions whether he is even in the past at all. He asks the question: would it be possible to abandon his future to remain in the year 1922? If he makes that fateful decision, what will become of the future Zachary Perkins living in the year 2010? More immediately, if he stays, what will become of the two-year-old boy who was Delilah's first child?

Carnegie May 26 2022 Carnegie Vitali, a self-made billionaire and hit man/assassin for an Italian mob family and a private organization, who lives a twisted lifestyle, tries to hold his family together by keeping them safe from unforeseen danger. He marries twice and shares children with both of his wives. His first wife never loved him. She only wanted the money. But his second wife, whose faith was strong in God, loved him through it all, hard and unconditionally. Carnegie also suffers off and on, dealing with three mental illnesses, multiple personality disorder, post-traumatic stress disorder (PTSD), and paranoid schizophrenia. The one that affects him the most is multiple personality disorder, which causes him to turn into some of his alter egos unknowingly. Even though his wife and mother prayed consistently to God and needed him too, he still didn't believe in a God that would make someone mentally ill. Ordered to do another job, Carnegie kills a young boy's father, not knowing that he would soon grow up to avenge his father's death. The young man vowed that if he ever saw Carnegie again, he would kill him. Years later, tables turn. His past finally catches up to him, and near tragedy strikes hard, leaving his wife

in the hospital with a 10 percent survival rate from a bullet taken in the chest that was meant for him. Feeling helpless, not knowing if his wife will make it through the night, Carnegie puts his differences aside and turns to God for the first time, hoping that his prayers will be answered.

The Moral Metaphor System Feb 29 2020 This book investigates moral metaphors in English and Chinese, applying conceptual metaphor theory to a comparative study of the linguistic manifestation of the moral metaphor system rooted in the domains of bodily and physical experience. Ning Yu sheds light on the metaphorical nature of moral cognition and how it is systematically manifested in language, and explores the potential commonalities that define moral cognition in general, as well as the differences that characterize distinct cultures. The work investigates moral cognition at the cultural level as reflected in language, based on linguistic evidence from both English and Chinese and, to a limited extent, multimodal evidence from the corresponding cultures. The moral metaphor system is taken to consist of three major subsystems, referred to as "physical", "visual", and "spatial". These subsystems are clusters of conceptual metaphors, whose source concepts are from domains of embodied experiences in the physical world, and which are formulated in contrastive categories with bipolar values for the target concepts of moral and immoral. The study is characterized by two keywords: system and systematicity: The former refers to the fact that metaphors (conceptual and linguistic) are connected within networks, and the latter to the need for those metaphors to be studied in such networks.
