Lockerbie: The Truth Feb 21 2022 On 21 December 1988, Pan Am Flight 103 from Frankfurt to Detroit was destroyed by a bomb, killing all 243 passengers and sixteen crew. Large sections of the aircraft, bodies and personal effects crashed onto residential areas of Lockerbie, Scotland, resulting in the deaths of a further eleven people on the ground. The psychological damage to traumatised residents would take many years to disappear; in some cases, it never did. Libyan Abdelbaset al-Megrahi is the only person to have been convicted of the crime – though few believe that he acted alone and some believe him innocent. Author Douglas Boyd presents evidence that it was Iran, not Libya, which was responsible for the attack. On 3 July 1988 (less than six months before the Lockerbie bombing), Iran Air flight 655 was in Iranian airspace on a Bandar Abbas-Dubai flight when it was shot down by missiles from the USS Vincennes sailing illegally into Iranian territorial waters. Government leader Ayatollah Khomeini decreed that blood should flow in revenge. However, this line of enquiry was quietly closed and Libya declared guilty because the White House wanted neighbouring Syria and Iran on-side for the build-up to the first Gulf War against Saddam Hussein's Iraq. Lockerbie: The Truth at last reveals the facts about

what happened on that awful night at Lockerbie.

The Lockerbie Bombing May 15 2021 The destruction of Pan Am Flight 103 over the Scottish town of Lockerbie in December 1988 was the largest attack on Britain since World War Two. 259 passengers and 11 townsfolk of Lockerbie were murdered. Libyan Abdelbaset al-Megrahi was convicted of the crime. He maintained his innocence until his death in 2012. Among the passengers was Flora, beloved daughter of Dr Jim Swire. Jim accepted American claims that Libya was responsible, but during the Lockerbie Trial he began to distrust key witnesses and supposed firm evidence. Since then it has been revealed that the USA paid millions of dollars to two central identification witnesses, and the only forensic evidence central to the prosecution has been discredited. The book takes us along Dr. Swire's journey as his initial grief and loss becomes a campaign to uncover the truth behind not only a personal tragedy but one of the modern world's most shocking events.
