a dramatic period for most primary commodity markets. Producers suffered heavily as prices fell in response to new supply facilities going into production, juxtaposed against disappointing demand evolution from China in particular, marking the end of the most powerful and enduring commodity boom since the Second World War. This book is a guide to the primary commodity universe, an increasingly crucial part of the world economy. In this updated edition, Marian Radetzki and Linda Wårell introduce and explain pertinent issues surrounding international commodity markets, including the importance of fossil markets among commodities, price formation, price trends, the shift in primary commodity consumption towards Asia, the increasing reliance on commodity exchanges, new relaxed attitude towards depletion, cartel action, and the revival of nationalism and state ownership. This is an accessible read for graduates, academic researchers, and professionals in the mineral and energy sectors. Offers a comprehensive look at the history of the state of Florida, from its discovery, exploration, and settlement through its becoming a state, to notable events in the early twenty-first century. *previous permission is essential. Reconnaissance au Maroc is Charles de Foucauld's adventurous account of his Moroccan explorations. For eleven months in 1883–84, Foucauld travelled through a country then off-limits to Europeans, documenting its landscape and charting its waterways. He travelled in disguise as a Russian rabbi, Joseph Aleman, accompanied by the real rabbi Mardochee Aby Serour, and sought hospitality in the mellahs, Jewish quarters, of villages along their route. Foucauld meticulously recorded every day of his time in Morocco, and by the time his memoir was published in 1888 it had already garnered praise in France and the prestigious gold medal from the Société de Géographie de Paris. The book is more than merely a travel memoir, however: as an artefact of cultural and religious encounter, and as a scientific compendium, Reconnaissance au Maroc offers an extraordinary glimpse of the late-nineteenth century French mentality toward North Africa, as well as a cross-section of Moroccan society in the pre-colonial era. Rosemary Peters-Hill's volume translates Foucauld's work into English for the first time, situating Reconnaissance within the contexts of both late-nineteenth century French writing about ailleurs, other places, and Foucauld's own journey through Morocco: the "other" place where, paradoxically, he found his true self and calling.*
