The Gift of the Magi is a treasured short story written by O. Henry. A young and very much in love couple can barely afford their one-room apartment, let alone the extra expense of getting Christmas presents for one another. But each is determined to show their love for the other in this traditional way of giving; each sells a thing they hold most dear in order to afford a present with poignant and touching results that capture their love for one another.

Teaching Overseas: Sanity Optional delves into stories and issues that take you beyond the every day realities of teaching abroad. This book chronicles the misadventures we encountered over four years in a Turkish school, though the reader will probably regard as fiction. The book consists of 100% TRUE stories, anecdotes, situations and resolutions that will astound you and more importantly make you shake your head and just laugh. This book addresses a seemingly simple question: Just how many people really work for the federal government? Official counts show a relatively small total of 1.9 million full-time civil servants, as of 1996. But, according to Paul Light, the true head count is nearly nine times higher than the official numbers, with about 17 million people actually providing the government with goods and services. Most are part of what Light calls the "shadow of government"—nonfederal employees working under federal contracts, grants, and mandates to state and local governments. In this book--the first that attempts to establish firm estimates of the shadow work force-- he explores the reasons why the official size of the federal government has remained so small while the shadow of government has grown so large. Light examines the political incentives that make the illusion of a small government so attractive, analyzes the tools used by officials to keep the official headcount small, and reveals how the appearance of smallness affects the management of government and the future of the public service. Finally, he points out ways the federal government can better manage the shadow work force it has built over the past half-century. For years, Kim Marshall and Jenn David-Lang have been considered "designated readers," curating ideas and research for busy frontline educators. Kim's weekly Marshall Memo summarizes the best articles from more than sixty magazines and journals. This book is based upon a Ph. D. dissertation written by an Air Force officer who studied at the University of Denver. Currently an Associate Professor of History at the Air Force Academy, Major Osur's account relates how the leadership in the War Department

and the U.S. Army Air Forces (USAAF) tried to deal with the problem of race and the prejudices which were reflected in the bulk of American society. It tells a story of black racial protests and riots which such attitudes and discrimination provoked. The author describes many of the discriminatory actions taken against black airmen, whose goal was equality of treatment and opportunities as American citizens. He also describes the role of black pilots as they fought in the Mediterranean theater of operations against the Axis powers. In his final chapters, he examines the continuing racial frictions within the Army Air Forces which led to black servicemen protests and riots in 1945 at several installations.

Three sinister and creepy tales by Anthony Horowitz, a master storyteller and the bestselling author of the Alex Rider series. Gary hates the countryside - why did his mum have to bring him here to stay with his gran? It's boring and prickly and field after field, it all looks the same - especially when you're lost... Kevin loves computer games, but this latest game (Smash Crash Slash 500 Plus) breaks all the rules, and now Kevin is part of the game... Howard is in Heaven, strange after a life spent bullying, stealing and playing truant - so why is he so unhappy?
