The Terror Mar 31 2020 For the audience that made a major bestseller of Simon Schama's Citizens: A Chronicle of the French Revolution comes this exhaustively researched, character-driven chronicle of revolutionary terror, its victims, and the young men—energetic, idealistic, and sincere—who turned the French Republic into a slaughterhouse. 1792 found the newborn Republic threatened from all sides: the British blockaded the coasts, Continental armies poured over the frontiers, and the provinces verged on open revolt. Paranoia simmering in the capital, the Revolution slipped under control of a powerful clique and its fanatical political organization, the Jacobin Club. For two years, this faction, obsessed with patriotism and purity—self-appointed to define both—inflicted on their countrymen a reign of terror unsurpassed until Stalin's Russia. It was the time dominated by Maximilien Robespierre, Georges Danton, Jean-Paul Marat and Louis-Antoine Saint-Just (called "The Angel of Death"), when Louis XVI and Marie Antoinette met their ends, when any hint of dissent was ruthlessly quashed by the State. It was the time of the guillotine, neighborhood informants, and mob justice. This extraordinary, bloodthirsty period comes vividly to life in Graeme Fife's new book. Drawing on contemporary police files, eyewitness accounts, directives from the sinister Committee for Public Safety, and heart-wrenching last letters from prisoners awaiting execution, the author brilliantly re-creates the psychotic atmosphere of that time.

A Guide Book of Half Cents and Large Cents, 1st Edition Mar 12 2021 Volume #19 in Whitman's best-selling Bowers Series covers two of the earliest U.S. coin denominations: half cents and large cents. These classic copper coins were made from 1793 into the late 1850s. In this colorfully illustrated book, America's popular early coppers are given the famous Q. David Bowers treatment: insightful study, rich historical background, and detailed data analysis. Bowers the "Dean of American Numismatics" and the most prolific numismatic author of all time tells you everything you need to know to be a smart collector: how to evaluate quality, determine value, understand the market, and make good buys. Along the way, he explains why, in all of American coinage, half cents and large cents possess a special charm. You'll learn how the history of the developing nation shaped the coins' designs and production, and the effects the War of 1812 and other national events on their coinage. Bowers provides a wealth of information on each issue: mintages, existing populations, grading standards, values, auction records, keys to collecting and more. Historical background sets the coins in the broader context of American life from the 1790s through the 1850s. Hundreds of full-color images, careful analysis, and Bowers' engaging style make this book a treat for anyone interested in our nation's early history.

The Académie Royale de Peinture et de Sculpture Oct 19 2021 The Académie Royale de Peinture et de Sculpture (French Academy of Painting and Sculpture)—perhaps the single most influential art institution in history—governed the arts in France for more than 150 years, from its founding in 1648 until its abolition in 1793. Christian Michel's sweeping study presents an authoritative, in-depth analysis of the Académie's history and legacy. The Académie Royale assembled nearly all of the important French artists working at the time, maintained a virtual monopoly on teaching and exhibitions, enjoyed a priority in obtaining royal commissions, and deeply influenced the artistic landscape in France. Yet the institution remains little understood today: all commentary on it, during its existence and since its abolition, is based on prejudices, both favorable and critical, that have shaped the way the institution has been appraised. This book takes a different approach. Rather than judging the Académie Royale, Michel unravels existing critical discourse to consider the nuances and complexities of the academy's history, reexamining its goals, the shifting power dynamics both within the institution and in the larger political landscape, and its relationship with other French academies and guilds.

The Indigo Girl Oct 07 2020 The year is 1739. Eliza Lucas is sixteen years old when her father leaves her in charge of their family's three plantations in rural South Carolina and then proceeds to bleed the estates dry in pursuit of his military ambitions. Tensions with the British, and with the Spanish in Florida, just a short way down the coast, are rising, and slaves are starting to become restless. Her mother wants nothing more than for their South Carolina endeavor to fail so they can go back to England. Soon her family is in danger of losing everything. Upon hearing how much the French pay for indigo dye, Eliza believes it's the key to their salvation. But everyone tells her it's impossible, and no one will share the secret to making it. Thwarted at nearly every turn, even by her own family, Eliza finds that her only allies are an aging horticulturalist, an older and married gentleman lawyer, and a slave with whom she strikes a dangerous deal: teach her the intricate thousand-year-old secret process of making indigo dye and in return—against the laws of the day—she will teach the slaves to read. So begins an incredible story of love, dangerous and hidden friendships, ambition, betrayal, and sacrifice. Based on historical documents, including Eliza's letters, this is a historical fiction account of how a teenage girl produced indigo dye, which became one of the largest exports out of South Carolina, an export that laid the foundation for the incredible wealth of several Southern families who still live on today. Although largely overlooked by historians, the accomplishments of Eliza Lucas influenced the course of US history. When she passed away in 1793, President George Washington served as a pallbearer at her funeral. This book is set between 1739 and 1744, with romance, intrigue, forbidden friendships, and political and financial threats weaving together to form the story of a remarkable young woman whose actions were before their time: the story of the indigo girl.

The Pacificus-Helvidius Debates of 1793-1794 Apr 12 2021 Frisch, emeritus professor of political science at Northern Illinois University, writes in the Introduction: "The open-ended character of some of the constitutional provisions afforded opportunities for extending the powers of government beyond their specified limits. Although not given prior sanction by the Constitutional Convention, such additions served to provide a more complete definition of powers without actually changing the ends of government." The Neutrality Proclamation brought the issue to the forefront and inspired this classic debate."

Speak Feb 20 2022 The extraordinary, groundbreaking novel from Laurie Halse Anderson, with more than 2.5 million copies sold! The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. *Speak* was a 1999 National Book Award Finalist for Young People's Literature.

In These Times Nov 07 2020 A beautifully observed history of the British home front during the Napoleonic Wars by a celebrated historian We know the thrilling, terrible stories of the battles of the Napoleonic Wars—but what of those left behind? The people on a Norfolk farm, in a Yorkshire mill, a Welsh iron foundry, an Irish village, a London bank, a Scottish mountain? The aristocrats and paupers, old and young, butchers and bakers and candlestick makers—how did the war touch their lives? Jenny Uglow, the prizewinning author of *The Lunar Men* and *Nature's Engraver*, follows the gripping back-and-forth of the first global war but turns the news upside down, seeing how it reached the people. Illustrated by the satires of Gillray and Rowlandson and the paintings of Turner and Constable, and combining the familiar voices of Austen, Wordsworth, Scott, and Byron with others lost in the crowd, *In These Times* delves into the archives to tell the moving story of how people lived and loved and sang and wrote, struggling through hard times and opening new horizons that would change their country for a century.

From Little London to Little Bengal Jan 22 2022 How literary and religious traffic between Bengal and Britain in the late 18th and early 19th centuries impelled a complex and contested cosmopolitan imperial culture. From *Little London* to *Little Bengal* traces the traffic in culture between Britain and India during the Romantic period. To some, Calcutta appeared to be a "Little London," while in London itself an Indianized community of returned expatriates was emerging as "Little Bengal." Circling between the two, this study reads British and Indian literary, religious, and historical sources alongside newspapers, panoramas, religious festivals, idols, and museum exhibitions. Together and apart, Britons and Bengalis waged a transcultural agon under the dynamic conditions of early nineteenth-century imperialism, struggling to claim cosmopolitan perspectives and, in the process, to define modernity. Daniel E. White shows how an ambivalent Protestant contact with Hindu devotion shaped understandings of the imperial mission for Britons and Indians during the period. Investigating global metaphors of circulation and mobility, communication and exchange, commerce and conquest, he follows the movements of people, ideas, books, art, and artifacts initiated by writers, publishers, educators, missionaries, travelers, and reformers. Along the way, he places luminaries like Romantic poet Robert Southey and Hindu reformer Rammohun Roy in dialogue with a fascinating array of lesser-known figures, from the Baptist missionaries of Serampore and the radical English journalist James Silk Buckingham to the mixed-race prodigy Henry Louis Vivian Derozio. In concert and in conflict, these cultural emissaries and activists articulated national and cosmopolitan perspectives that were more than reactions on the part of marginal groups to the metropolitan center of power and culture. The British Empire in India involved recursive transactions between the global East and West, channeling cultural, political, and religious formations that were simultaneously distinct and shared, local, national, and transnational.
